Natural Gas Initiative Research Happy Hour

Thursday, April 26
4:00 to 5:45 pm
Hartley Conference Room, Mitchell Bldg. 1st floor

Join the Stanford Natural Gas Initiative community for informal networking over refreshments and a series of short, exciting research talks.

Speakers:

- Andrew Riscoe, Chemical Engineering: **Biomimetic oxidation catalysts from polymer-nanocrystal composite materials**

- Daniel Roda-Stuart, Energy Resources Engineering: **How Effective are Leak Detection and Repair Programs in Reducing Methane Emissions?**

- Yan Xia, Chemistry: **Development of Microporous Polymer Membranes for Natural Gas Purification**

Drinks and light snacks will be served.
