The Honorable Ernest Moniz, Former U.S. Secretary of Energy

Wednesday, April 10, 2019
4:00–5:00pm Presentation
5:00–7:00pm Reception
Tresidder Memorial Union, Oak Lounge
459 Lagunita Drive, Stanford

Open to Stanford faculty, students and staff

Optionality, Flexibility, & Innovation: Pathways for a Deep Decarbonization in California

Stanford Energy’s Precourt Institute for Energy and the Natural Gas Initiative invite you to a seminar with former Secretary of Energy Ernest Moniz on California’s pathways for decarbonization. The Honorable Ernest Moniz and distinguished colleagues will discuss a new report authored by the Energy Futures Initiative “Optionality, Flexibility, & Innovation: Pathways for a Deep Decarbonization in California” and will take questions about the technologies, policies, investments, and innovation needed for California to meet the state’s aggressive carbon reduction goals. A reception will follow.

Speaker Biography: The Honorable Ernest Moniz is the former U.S. Secretary of Energy, president and CEO of the Energy Futures Initiative, and a professor at MIT, where he was the founding director of the MIT Energy Initiative.” Full bio.
